INVIDEOUS LIMITED INTEGRATION INSTRUCTIONS

Kaltura

Katerina Hristovska

Kaltura Integration Instructions

Step 1: Login into your Kaltura account here: <http://corp.kaltura.com/>

The login form is titled "Login" and is contained within a light blue box. It features two input fields: "Email:" with a placeholder "Enter Email" and "Password:" with a placeholder "Enter Password". Below these fields is a checkbox labeled "Remember Me". At the bottom of the form, there are three links: "Forgot Password?", "Signup", and a blue "Login" button.

Step 2: Configuring the Player

Once you will be logged in into your Kaltura account, you need to go to the Studio tab from the navigational menu. Here you can create your player.

The screenshot shows the "Players List" page in the Kaltura Studio. The top navigation bar includes "Dashboard", "Content", "Studio", "Analytics", "Settings", "Administration", and "Upload". The "Studio" tab is active. Below the navigation bar, there is a "Players List" table with columns for Name, ID, Save Date, Size, Basics, and Actions. To the right of the table is a vertical menu with buttons for creating new players: "New Player - Single Video", "New Player - Horizontal Playlist", "New Player - Vertical Playlist", "New Player - Multiple Horizontal Playlist", "New Player - Multiple Vertical Playlist", "New Player - Hovering Controllers", "New Player - Hovering Playlist", and "508 Player - Single Video".

Name	ID	Save Date	Size	Basics	Actions
NikolaPlayer1	9660821	2012-10-04 16:41:39	700 x 500	Player	Select Action
Katerina Kaltura	8095071	2012-09-24 16:40:13	719 x 530	Player	Select Action
Kalina Kaltura	8317401	2012-06-07 17:50:51	719 x 530	Player	Select Action
Katerina	6017511	2012-05-14 11:40:17	700 x 530	Player	Select Action
Player with no share button	6017412	2011-10-14 13:56:21	400 x 360	Player	Select Action
Player with custom watermark	6017422	2011-10-14 13:56:21	400 x 330	Player	Select Action

Click on one of the different types of players from the right hand side. Add a name to your player and click on the 'Save Changes' button.

Your player will be added in the list of all players created. Once the player is created, we need to add parameters within the player. Next to the created player, you can see **Select Action** dropdown menu. Click on the **Edit** button.

Once we are in Edit mode of the player, we can customize our player in our own taste. But for Invidious integration the important section is the

'Additional parameters and plugins'. Click on this section, as it is listed at the bottom of the picture below.

Select Features from List:

Controls

<input type="checkbox"/>	Title Text	Options
<input type="checkbox"/>	Your Watermark	Options
<input checked="" type="checkbox"/>	Left Play Counter	Options
<input checked="" type="checkbox"/>	Right Play Counter	Options
<input type="checkbox"/>	Flavor Selector	Options
<input checked="" type="checkbox"/>	Full Screen Button	Options

* Features that require additional configuration.

Viral & Distribution

UGC & User Interaction

Custom Buttons*

Additional parameters and plugins

Click on the Add button as it is shown in the picture below and you will need to add some pair of parameters in order to reference your Kaltura videos into Invideous Control Panel.

Additional parameters and plugins

Add additional parameters to your player

Paste your plug-in line here:

Key-value table:

[Add](#) [Remove](#) [Delete all](#)

Once you will press the Add button you will see below two entry lines (key, value):

key	
value	
<input checked="" type="checkbox"/>	Override flashvar of the same name

You need to add these additional parameters in this section:

Key	Value
invideous.plugin	true
invideous.path	http://plugin.invideous.com/v5/invideous.swf
invideous.relativeTo	PlayerHolder
invideous.position	lastChild
invideous.width	100%
invideous.height	100%
invideous.entry	{mediaProxy.entry}
invideous_pid	YOUR_INVIDEIOUS_PID
IframeCustomPluginJs1	http://plugin.invideous.com/html5/latest/scripts/invideous.js
IframeCustomPluginCss1	http://plugin.invideous.com/html5/latest/style/style.css

After all these parameters are inserted in this section, click on the 'Save Changes' button.

Step 2.1 Finding your Invideous Publisher ID

Step 2.1.1: Login as a publisher on www.invideous.com

Step 2.1.2

You will be redirected into your publisher control panel. In the Settings section you can find your publisher ID

Step 3: Embedding single video

Go to the content tab from the Kaltura control panel. Here you can find all your videos uploaded, or this is the place where you can upload new videos.

3.1 Next to the video that you want to upload you will see **Select Action** drop-down menu. Click on the **View Details** button.

<input type="checkbox"/>		1_3rub5s99	Feeling Good		85	11/22/12 16:11	03:18	Ready	Select Action Preview & Embed Delete View Details
<input type="checkbox"/>		1_oc8lliv2	SAF - Race Gore		583	11/22/12 12:08	04:44	Ready	

Go in the Flavors tab.

Edit Entry - Feeling Good

Current state: All required Transcoding Flavors are available. Entry is ready for publishing.

Replace Video:

Click the Action dropdown menu below to manage the Transcoding Flavors for this entry. [Refresh](#)

Asset ID	Transcoding Flavo	Format	Codec	Bitrate(kbps)	Dimensions	Size(KB)	Status	Action
1_5kmalcmz	Standard - Small	flv	vp6	836	464 x 352	20275	OK	Select Action
1_a0ocps37	Standard - Large	flv		0	[auto] x [auto]	0	N/A	Select Action
1_s840901v	High - Large	flv		0	[auto] x [auto]	0	N/A	Select Action
1_fgofj4fa	HD	flv		0	[auto] x [auto]	0	N/A	Select Action
1_pr39ww2e	Mobile (H264) - Stanc	mp4	avc1	864	480 x 360	20684	OK	Select Action
0_t12c2fex	iPad	mp4	avc1	1011	640 x 480	24473	OK	Select Action
0_gxwa8ufu	HQ MP4 for Export	mp4	avc1	1014	640 x 480	24576	OK	Select Action
0_djatq1rs	Mobile (H264) - Basic	mp4	avc1	463	480 x 360	11264	OK	Select Action
	Editable				[auto] x 480			Select Action
	Mobile (3GP)				320 x [auto]			Convert
	WebM				[auto] x 360			Upload
								Import

[Previous Entry](#) [Next Entry](#)

Click on the 'Convert' button under the Select Action and wait until the process is finished. You will see OK in the Status column. You need to encode the video in other formats in order to be playable on mobile devices, iPad, iPhone and etc. Save & Close.

3.2 Next to the video that you want to upload you will see **Select Action** drop-down menu. Click on the **Preview & Embed** button.

Thumbnail	ID	Name	Type	Plays	Created On	Duration	Status	Actions
	1_clnpte2z	Muse - Feeling Good (V		438	10/14/11 14:00	03:18	Ready	Select Action Preview & Embed Delete View Details
	0_ohi6u64n	Sample Kaltura Logo		0	10/14/11 13:56	00:00	Ready	View Details

You will see one pop-up window. Here you need to choose the player which is configured with Invideous parameters. Copy the embed Code, paste it Notepad++ and save it as .html file.

You can embed this video at your web site, or anywhere else. After the first play of the video, it will be referenced into your Invideous publisher account.

After that, you can choose to add Paywall app or one of many our applications.

You can find more instructions about this here:

<http://www.invideous.com/support/publisher/en/14/how-to-add-paywall-application>

Step 4: Referencing multiple videos

In order to reference multiple videos in one time from your Kaltura account into your Invideous Control Panel, you need to follow these instructions:

4.1 Login in your Invideous account and go to the 'Manage Videos' section. You can see at the top of the page two sections: 'Videos' and 'Live Videos'. Next to the 'Videos' section there is a button 'Add'. After you click on it, in a drop-down menu you can see all the OVPs that we are offering integrations with. Click on 'Kaltura' button.

Upload from PC

After clicking on the Kaltura button, you will see one pop-up window in front of you.

There are 4 labels that you need to fill in with information from your Kaltura account.

- User ID
- Partner ID
- Secret code type
- User or Administrator Secret

UPLOAD VIDEO FROM "KALTURA" ×

User ID (email):

Partner ID (integer):

Secret code type:

User or Administrator Secret:

In order to find these data return to your Kaltura account, in the Settings tab from the navigational menu. Go to the 'My User Settings' section. You can find your User ID here:

The screenshot shows the Kaltura user settings interface. The navigation bar includes 'Dashboard', 'Content', 'Studio', 'Analytics', 'Settings', and 'Administration'. Under 'Settings', there are links for 'Account Settings', 'Integration Settings', 'Access Control', 'Transcoding Settings', 'Custom Data', 'My User Settings' (which is active), and 'Account Upgrade'. The 'User Details' section contains the following information:

User Name:	Marija Stojmirova	Edit
User ID:	marija.stojmirova@invideous.com	
Email Address:	marija.stojmirova@invideous.com	Edit Change KMC Password
Role:	Publisher Administrator	
Role Description:	Full control over publisher account and user management functionalities	

Copy this and paste it in the Kaltura integration in the Invideous CP, field 1.

In order to find all the other information that we need, go to the 'Integration Settings'.

The screenshot shows the Kaltura 'Integration Settings' page. The navigation bar includes 'Dashboard', 'Content', 'Studio', 'Analytics', 'Settings', and 'Administration'. Under 'Settings', there are links for 'Account Settings', 'Integration Settings' (which is active), 'Access Control', 'Transcoding Settings', 'Custom Data', and 'My User Settings'. The 'Account Info' section contains the following information:

Partner ID:	1137762
Sub Partner ID:	113776200
Administrator Secret:	c00a76d509cda80615344b969bf6d8b3
User Secret:	767dfb2cccc9caa07972991deb937295

Here you can find your Partner ID, Administrator Secret and User Secret.

Return again in your Invideous account, Kaltura section:

- Insert your User ID
- Insert the Partner ID
- As a third step you need to choose from the drop-down menu: User/Administrator
 - o If you choose User, than in the 4th step 'User or Administrator Secret' you need to insert the User Secret token.
 - o If you choose Administrator, than in the 4th step you need to insert the Administrator Secret token
- Click on the 'Save' button

If for some reason when you use User in the 3rd step and User Secret in the 4th step, you get some integration error, than you need to try with Administrator in the 3rd step and Administrator Secret in the 4th step.

After only few seconds all videos from your Kaltura account will be referenced into your Invideous account.

Step 5: Embedding Kaltura video with Invideous Plugin on Facebook

If you want to share your video with Invideous plugin on Facebook, than you need one more thing in the player options. Return to the Studio tab and select the configured player.

Players List

In this page you can customize the look and the functionality of your players. You can design and configure a new player or select one of the players on the left for editing.

Name	ID	Save Date	Size	Basics	Actions
Katerina Kaltura HTML5	15715332	07/31/13 15:42	700 x 500	Player	Select Action

Copy the ID of the Player as it is showed in the picture above. You need to insert this ID in the player settings. Click on the **Select Action** and then **Edit**. Select Distribution and User Interaction tab.

Select Features from List:

Controls

Additional parameters and plugins

Click on the **Options** button that is next to the Share option. Paste the Player ID in the Target player ID field and click on Apply.

Target player id	<input type="text" value="15715332"/>
Twitter via	<input type="text"/>
AddThis partner id	<input type="text"/>
<input type="button" value="Apply"/> <input type="button" value="Cancel"/>	

Save the changes and return to the Content tab to embed your video.

In order to share your Kaltura video with Invideous plugin on Facebook click on the Share button within the player and then on the Facebook button.

Your video will be shared on your Facebook account.
